A Visit With Dr. John

So many places have been hit hard by hurricanes and by an earthquake. These natural disasters are horrible. They have the power to devastate an area and kill people.

I'm certain most of you have been lifting up in prayer the people affected by these problems. Many have given food, supplies and money to aid these victims. We had two teams of disaster Relief workers dispatched to Fort Myers, Florida. Another probably will go in a couple of weeks. I'm thankful for these friends among us who are willing to go and help.

More disturbing than the natural disasters is the shooting attack upon innocent people at the concert in Las Vegas. Senseless, atrocious acts like this make us see something of the evil in this world. I offer my heartfelt sympathy and prayers for all people hurt or affected by this tragedy.

For those of us who know Christ as Savior and Lord, it should spur us to be more active in sharing the gospel and in teaching people the Way of the Lord. We also should be thinking of and working toward ways our society can curtail or diminish these kinds of shootings that have been so prevalent in recent years.

Our annual meeting is the 17th at Lee Street Church. I would love to see you there, even if you're not an elected messenger. The people who lead our association through the various committees are to be commended. Because of the multifaceted work these people lead us to do, we have an association of which we can be very proud. Also, it is good just to have partners, brothers and sisters in our faith and the work.

Let me say again how thankful I am to you and to the Lord for the privilege of working alongside you in his great kingdom work!

Thank you!
